| Total to date | \$1,753.83 |

Western Filly Trains For Queen's Plate

VIRGINIA FAIR, Western Canada's juvenile champion of 1952 gallops over the frozen racing strip at Edmonton, as she trains for the 94th renewal of the Queen's Plate at Toronto, May 24. The filly, which is owned by J. C. Charlesworth of Edmonton, is the West's main hope for Plate laurels.

Industrial Area Layout Plan Completed For Metropolitan Area

EDMONTON—At the April meeting of the Edmonton District Planning Commission, Mr. A. Soetaert, Mayor of Morinville and representative of hat town on the commission, was elected chairman succeeding Mr. H. N. Lash, Director of Town and Rural Planning, who asked to be relieved of that office owing to pressure of other duties.

Mr. S. H. Payne, representative for the Town of Beverly, was elected Vice-Chairman.

The appointment of a further technician to bring the technical staff up to requirements came before the meeting and the qualifications desirable in such an appointee were discussed. It had been suggested that a man with an agricultural background (to help in the preparation of a plan for the entire Planning Districts) might be desirable, but, as some members felt that in view of the activities of the Department of Agriculture and other agricultural agencies, agricultural qualifications might not be necessary. The matter was left in abeyance pending a report from the rural municipalities in the matter.

The subject of revisions in the Industrial Zone in the Strathcona area of the Metropolitan Outline General Plan again came up and the Commission adopted a recommendation of the Steering Committee which provides for the retention in that zone of 741 acres of undermined land and the addition of 1,836 acres around the fringe of the zone set out in the original plan.

The Commission also decided that additions beyond those now approved should be taken care of in a plan for the Municipal District of Strathcona to be drawn up by the Interim Development Board of that district with the assistance of the technical staff of the Commission.

Final approval of the Commission was given to the addition of the following regulations to the regulations governing land use in the "A" and "B" Zone Greenbelts of the Metropolitan Outline General Plan:

A.—"That notwithstanding the

above regulations, any parcel containing at least two acres but less than 20 acres, and title to which was registered in the Land Titles Office prior to the adoption of the Outline General Plan on April 9, 1952, may be divided into two parcels, provided, however, that neither of these latter parcels may be less than one acre in area."

B.—In cases where more than one dwelling has been erected on one registered parcel of land prior to the first day of April, 1953, the owner may sub-divide such parcel, to provide one registered parcel for each such dwelling, providing that the local authority has no objection to such action."

The Director reported that a detailed layout for that part of Industrial Area in the N.W. Sector of the Metropolitan General Plan outside the City limits had been completed by the staff. This area lies partly within each of the Municipalities of Town of Jasper Place and the Municipal Districts of Stony Plain and Morinville, and the adoption of the plan by these municipalities will be requested in order that it can come into effect.

Four Hospitalized After Car Accident

CROSSFIELD.—Five miles north of Airdrie, a car in which Lila, Lloyd and Ralf Fike and Mrs. Pollock were occupants, collided with a truck and the victims of the accident were rushed by Star's ambulance to Calgary General Hospital, where Ralf is receiving treatment for a broken arm. Lloyd is very badly hurt and Lila is suffering from bruises and shock. Mrs. Pollock is from Calgary and the Fikes are from Madden. To date all injuries are not determined.

Crossfield News Briefs

On Thursday, April 23 Mr. C. C. Stafford was taken to Didsbury hospital for medical treatment. Mr. Stafford is an old timer of the Crossfield district, and all are hoping for his speedy recovery.

Mrs. Oscar Jones, formerly of Crossfield, has just returned to her home in Victoria after a surgical operation in a B.C. hospital. Mr. O. E. Jones visited his son George, while he was hospitalized and left in time to be with Mrs. Jones.

On Wednesday, April 22 Rev. Justice of the Anglican Church officiated at graveside service at 2:30 p.m. when the ashes of the late Mrs. Sefton Sr. of B.C., formerly of Crossfield, were interred in the grave of her husband, who predeceased her some years ago. Relatives and a few friends attended this service.

Mr. and Mrs. Allan Sharp are the proud parents of a 7 lb. 12 oz. baby girl, born in a Calgary hospital on Tuesday, April 21.

Mr. Ernest Sharp and his mother Mrs. Jim Sharp left Thursday evening for the east, where they will visit friends and relatives for a short time prior to driving home a new Pontiac.

Spring is in the air—everyone is busy housecleaning and "talking" gardening.

Mr. Tony Taks has purchased the house owned by Mrs. Mossop. Mr. and Mrs. Glen Klein, former renters have vacated the east half of the house and are now making their home in the living quarters of the Mardon. Mr. and Mrs. Waloluk are renting the rooms vacated by the Kleins, and the Taks, owners, are using the rest of the big house.

The Afternoon Bridge Club members met at the home of Mrs. Ed Fraser on Tuesday, last. A tasty lunch was served by the hostess and top scores were won by Mrs. W. W. Stafford and Mr. Gertie McDonald.

Mrs. G. O'Neil, Mrs. C. Fox and Mrs. L. Ableman attended the Variety Graduation exercises held in Central United Church, as guests of Miss Anna Ruddy, graduate. They also enjoyed refreshments in the church auditorium.

On Friday last, Mr. and Mrs. Goettler entertained the Inverlea 5 Club in their home. A delightful evening was spent and a tasty lunch enjoyed. The high scores were won by Mrs. Frank Landymore and Mr. Eric Landymore, who incidentally, held identical scores.

Mr. Brock Campbell has recently enjoyed a visit from her sister, Gracie of Medicine Hat.

Two weeks ago Madden sponsored a very successful Fashion Show, with a grand collection of wedding gowns from various years. The clothes were gathered in the most part from the district. One dress was over 100 years old an heirloom of the Ingham family. A fur coat, owned by Mrs. Larson, Sr., was on a model and viewed as a relic of the good old days. Mrs. Charney was organist for the occasion and everyone reported a very nice and interesting time.

Howard High, son of Arnold and the late Mrs. Catherine High, recently paid a visit to his two sisters, Barbara and Eunice, and found them in excellent health. Both girls reside in Ontario.

... and shock. Mrs. Pollock is from Calgary and the Fikes are from Madden. To date all injuries are not determined.

Celebrate 134th Year Of Odd Fellowship

CROSSFIELD.—The local Odd Fellows marked the 134th year of Odd Fellowship by extending a special invitation to the "Canton", one of the highest orders of the organization, to be present at a church service in the United church at 7:30 on April 19. This was the usual service presided over by Rev. Dovey of that church.

The Patriarchs Militant, of the "Canton", attended in full dress, arriving from various towns and cities of Alberta. The Rebekahs and local Odd Fellows were present and the congregation totalled over 100.

An inspiring and very appropriate sermon entitled "The Jericho Road," was delivered by Rev. Dovey, which depicts the compassion, friendship and unselfish efforts of the Good Samaritan, who risked his own life to minister to the robbed, bruised and beaten victims left helpless on the Jericho Road.

Rev. Dovey added to the sermon by singing "Bless This House," also in keeping with the spirit of Odd Fellowship. The choir selection for the occasion was "Gently Lord, Oh Gently Lead Us" (The Welsh Air). Suitable hymns were also sung and the accompanist for the evening was Mrs. Wilda Charney.

Following the service the Cantics, Rebekahs, local Odd Fellows and visiting friends partook of refreshments in the church parlor, which were served by members of the organization of the three links.

Win Bailey, N.G., welcomed all present and called on C. Fox, P.G.M. to act as M.C. Brother Fox called on various members of the Canton and visiting Rebekahs for a few words.

Among those heard were the Grand Treas. of the Patriarch Militant; Bro. Shore, P.G.M.; Bro. Carrington, G.M.; Bro. Gaw; Sister Rodgers, Assembly Sec. and the N.G. of Esther Lodge.

Each and every one of the speakers commended Rev. Dovey on his wonderful address, which was in keeping with their obligations, thanked the soloist, choir and organist and the committee for the refreshments and the social get-together which always stimulates the work of the order.

Starlight Chanter Starts Third Year

CROSSFIELD.—On Tuesday, April 21 the members of Starlight Eastern Star held their regular meeting with almost all their officers present. Mr. and Mrs. K. Neil of Airdrie were unable to attend as they journeyed to Calgary for the General Hospital graduation exercises as a guest of their graduate daughter.

Bill Patullo, master of ceremonies at a social evening congratulated the Stars on the work they had accomplished during the two years.

A social committee was in charge of games and lunch and the attraction of the evening was a beautifully decorated "Star" cake made by Mrs. Ken Neil and decorated suitably by Mrs. Deeks, in the color scheme of the lodge.

Over 40 attended this social evening in the basement of the lodge room after the business had been given attention, and enjoyed the games and contests.

A full-grown wolf in the Canadian wilds weighs on the average 100 pounds.

A healthy six-foot Canadian male should never weigh more than 185 pounds, according to medical statistics.

LT.-GOVERNOR, PREMIER PLAN
EXTENSIVE CORONATION TRIPS

EDMONTON—Extensive itineraries are planned by both Lt. Governor Bowlen and Premier Manning when they journey to England for the forthcoming Coronation.

Mr. and Mrs. Manning will leave Edmonton during the third week of May and will sail from New York on May 26 aboard the liner Queen Mary. They will dock at Southampton on the first of June, arriving in London in time for the Coronation. Following the Coronation, Mr. Manning will deliver a series of lectures at various centres throughout England, following which they will tour the British Isles and pay a brief visit to the continent. They expect to leave England for Canada about the

18th of June, arriving in Edmonton around June the 26th. Mr. Bowlen, accompanied by his daughter, Mrs. Mary Mooney, will be gone for about six weeks. They will leave Edmonton on the 11th of May for Montreal, where they will embark on the liner Empress of Scotland on May 15.

Greeting them at Liverpool will be R. A. McMullen, Alberta's agent-general in England, who will escort them on a tour of Scotland and Wales.

4-H Clubbers
Met At Olds

GIBBONS—More than 40 4-H Garden Clubs were represented at Olds for the Leadership course during Easter week. Seventy-two leaders and assistant leaders enjoyed the two-day course and gained valuable information from lectures and demonstrations.

Some of the speakers were Miss Margaret Fraser, supervisor of Girls' 4-H Clubs, Provincial Department of Agriculture; Mr. P. McCall and Mr. Hargreaves, prominent horticulturists at Edmonton and Brooks, respectively.

The Alberta Wheat Pool was represented by Mr. Ryason of Red Deer and Mr. Ness, the first of whom gave interesting information on judging of gardens and achievement days. Mrs. Norma Grey and Miss Lewis, authorities in freezing of foods and home nutrition demonstrated in their particular lines.

An enjoyable evening was highlighted at the banquet on Wednesday evening, beautifully served at long tables lit with white and yellow candles, and Easter decorations of yellow chicks, pussy willows and daffodils.

Speakers at the banquet were Mr. Black and Mr. Putnam, and two 4-H Garden Club girls who were winners at the Toronto Royal in 1952.

Where does the money go?

At times most of us have looked at purse, wallet or bank-book, and wondered: "Where does the money go?"

Each year we at Imperial add up the company's bills to see what happened to the money we received in the previous 12 months for the gasoline, fuel-oil and other products we sell. Here's where each dollar of Imperial's 1952 income went:

CRUDE OIL and other raw materials we bought, plus freight, took more than half of each dollar.

OPERATING expenses took more than 28 cents. This was the cost of searching for and producing crude oil, and of manufacturing and marketing the hundreds of products we supplied for thousands of uses. Throughout the year high quality products were made available where and when you needed them.

TAXES to provincial and federal governments took 10 cents. And this did not include gasoline tax, which—depending on where you live—took from 24 to 36 cents out of every dollar you spent for standard grade gasoline.

DIVIDENDS paid to shareholders for use of plants and equipment amounted to 4.06 cents.

TO REPLACE worn out equipment and to make sure that we can supply your needs in the future 3.42 cents was put back into the business.

IMPERIAL OIL LIMITED
Oil makes a country strong

SERVE CANADA

Soldiers like those of the airborne infantry are helping to guard Canada, ready to drop into action wherever danger threatens. The young man who joins the Army and has completed his Infantry training may then volunteer to start training for the proud wings of Canada's "Soldiers of the Sky."

AND YOURSELF

How does a man choose a job? He examines the pay; the working conditions; the opportunities for advancement; the financial security. From every one of these aspects an Army career is excellent. And more—no monotony of being stuck for years in one place; pension plans after 20 years service; medical and dental care whenever needed—without regard for cost or time. Opportunities for training and advancement in the Army today are truly outstanding.

IN THE ARMY

Soldiering is a man's life! There are challenges and dangers. But wherever you go, in the Army, you know you can rely on your comrades, trained fighting men who share with you the action of military life. If you think an Army career is for you, enquire about the opportunities for service with the Infantry—the most important men in the Canadian Army.

You are eligible to join the Army if you are 17 to 40 years of age and able to meet Army test requirements. Applicants should bring birth certificates or other proof of age when reporting for interview.

For full information apply right away to:

\$1
for **BRIGHT
SAYINGS**

The Editor will pay \$1.00 for each child's saying printed. To qualify, item must be true, personal remarks of a child known to the writer. Address "Bright Sayings," P.O. Box 4368, South Edmonton.

While my young daughter Sharon was at the neighbors, who were preparing for a wedding shower, someone sprinkled her with a bit of confetti, so when she came home I asked her what she had in her hair. "Some confession, Mama," she replied.

MRS. E. S.
Gainford, Alberta.

It was the first time little Johnny had seen a city policeman directing traffic, and while we waited for the lights to change, he had a good chance to watch him. We proceeded up another block, and there was another policeman directing traffic. Johnny gave him one last look of surprise and said, "Mummy, there's that same man bossin' people around."

MRS. B. R.
Crossfield, Alberta.

THE LIGHTER SIDE

Test of Patriotism

"What would you call a perfect citizen?"

"A man who feels like singing the National Anthem when making out his income-tax return."

Speaking of Waves

First Sailor: "How did you like your first trip across the Atlantic?"

Second Sailor: "It was perfect. Why, if it wasn't for that up-and-down motion I wouldn't have known I was on the ocean."

Struck by Her Feminine Charm

New York paper: "The girl put up a plucky fight and in the end the bandit was overpowered."

"Probably hit him with her vanity case and it flew open."

Short Sermons

A famous preacher once remarked to his congregation that every blade of grass was a sermon.

A few days later he was engaged in mowing his lawn, when a witty member passed by, and remarked, "That's right, doctor, cut your sermons short."

Poorly Timed

Jones suggested to his wife that they go over to the neighbor's house and watch the baseball game on television. For three hours they watched the game, then sat through a wrestling match for another hour. Finally, Mrs. Jones said:

"Harry, don't you think it's about time?"

"Say," interrupted her husband, "did you come over here to jabber or to watch television?"

By Way of Verification

"You would scarcely think it," we said, "but Henry Ford has built to date more than 15,000,000 cars."

"I can well believe it," snarled J. Fuller Gloom, the hater of his species, "for I have jumped out of the way of the most of them."

Ever-Charge

CHARGES BATTERY IN TEN MINUTES

Automatically Keeps Battery Charged
Start MOTOR, Use LIGHTS, Play RADIO as Much as you Like.

No More Charging — Ever-Charge Does It!

DOUBLES LIFE OF NEW OR USED BATTERY

(Only one treatment required)

For Use in Cars, Trucks, Tractors, Lighting Plants, Etc.

HOW IT WORKS

Ever-Charge is a chemical that prevents the lead and acid in Battery from combining to form what is called sulphation, which causes 90% of Battery failures. By preventing this sulphation it allows the acid to contact the lead and by so doing keeps the Battery at full charge.

**FOLLOW DIRECTIONS
ON PACKAGE**

GUARANTEE

EVER-CHARGE is guaranteed to do all we claim for it, if used according to directions and if the Battery is mechanically sound. Money back if not satisfied. Only 1 pkg. and 10 minutes required to treat battery. (Once only.)

Picayune Debate

The Opposition in Parliament is getting rather hard-pressed to find something interesting to talk about when they waste hours of the time of Parliament discussing the transfer of a Canadian National Hotel Manager from Winnipeg to Brandon. They have also carried this matter into the Railway Committee, and gave an amusing but not very edifying exhibition recently.

Donald Gordon, President of the Canadian National Railways, was called before the Committee and questioned as to why the transfer was made. J. M. Macdonald, PC Member for Toronto-Greenwood, and E. D. Fulton, PC Member for Kamloops, gave a cordial exhibition of what they consider their duties as members of Parliament. Their questioning of Donald Gordon was impudent and insulting, and although Mr. Gordon could hardly be blamed for being annoyed, there was no reason for him to lose his temper and act like a spoiled child.

Parliament will have to sit for twelve months and then not be able to do the business of the country if they are to be held up by the Opposition for days listening to complaints so picayunish to the country's economy as the transfer of a hotel employee.

Busy Bees

How many bee-hours of labor go into the production of one pound of honey?

Bee experts have been trying to find the answer to this question for almost half a century and all of them come up with a different answer. One father and son team, after 40 years of observing bees under varying conditions, credit each working field bee with an average day of eight hours gathering honey at the rate of 20 flowers per minute and 20 minutes an average trip.

Another authority, reports C-I-L Agricultural News, rates bee activity slightly lower. He states that a bee often visits 10 to 20 flowers per minute and makes only 10 trips a day. If it were possible for a single bee to gather all the nectar for one pound of honey at this rate, it would have to work 365 days a year for more than eight years.

Bees have been observed gathering honey at all hours. Some have been seen leaving clover fields at 9:22 p.m. Others worked basswood from 4 to 5 a.m.—just before sunrise. From other similar observations it was concluded that a bee's working hours were determined by the time of day flowers surrounding the hive yielded the most nectar. Some yield most of the day while others, such as buckwheat, only part of the day. Some blossoms close early in the afternoon and do not open until late in the morning.

Sugar content of nectar varies in different kinds of flowers or in flowers of the same species from season to season or even in the same flower from day to day.

The distance of the source of nectar from the hive is another important factor in honey production. Bees will go eight miles if they cannot find nectar nearer home. But because of lost time and reduced load, this is not profitable and bees prefer to work a source of nectar with a low sugar content near the hive before they will fly to flowers with a sweet nectar much farther away.

Men Of Valor

He was a hunch-backed, dwarfish man, with a frail body, but he possessed one of the profoundest mathematical minds of all time. Arriving in steerage from Germany, Charles P. Steinmetz came to be known as "the wizard of Schenectady." He was a genius in electrical theory and research at the General Electric Company. When Harvard bestowed an honorary degree upon him, it was said, "He is the foremost electrical engineer of the world."

Notes and Comment

Farm deliveries in the prairie provinces from August 1 1952, to January 26 totalled 433.5 million bushels, 279.9 million bushels of which was wheat and 153.6 million coarse grains. During the same period last year marketing totalled 367.6 million, with wheat accounting for 249.1 million and coarse grains 118.5 million bushels.

Teaching, A Job Or A Career?

By W. E. FINBOW, Department of Education

Everyone likes to feel that he is needed. Everyone likes to feel that his job is worth-while. The difference between putting in time and filling a need is the difference between a job and a career. The need for teachers today is very great; and the rewards of teaching—if you are the right sort of person—are very near and warm and real.

Teaching is a big job. Not everyone can measure up to it. You need to be healthy, both physically and mentally. You should be at least a little brighter than average. You need self-control and lots of it. You should have a wide-awake interest in what is going on in the world. You should be enthusiastic, and be able to rouse enthusiasm in others. You need to be able to stick with a problem. Above all, you must have integrity, your students must know that your thinking is honest, and your decisions fair. If you feel that you possess most of these qualities, there is a good future, a very good future, waiting for you in the teaching profession.

Teaching, like every other worth-while profession, involves a certain amount of grief. You must be able to adjust your behaviour to the needs of a group of young people, no two of whom are alike in any mental or emotional characteristic. And you will have to adapt yourself to the very special needs of those unhappily adjusted children who are to be found, a few, in every classroom. The problems that a teacher must solve, then, are delicate, difficult and highly complex problems. And sometimes, especially for the beginning teacher, the physical environment in which these delicate problems must be solved can be anything but an encouraging one.

Teaching is difficult work, but its compensations are unique. We have to think of money, of course. There was a time when teachers were poorly paid; nowadays you will receive a competent income, an income more secure and certain than that of any other profession. If you wish to engage in further study and better your qualifications, or enter some field of specialization—and for teachers there is every opportunity to do so—your income will increase accordingly. In education, the field is wide open to talent.

More important is the personal satisfaction that accrues to those who work constantly with children. To watch them grow, in competence and alertness and sensitivity, from day to day, and year to year, to see them enter every walk of life and "make good" and know that you have had a hand in the process—this is a very special kind of reward, and one that is offered by no other occupation besides teaching. Such a reward spells success in the very best meaning of the word.

Alberta needs teachers. We need workers especially in that area of teaching which requires the highest degree of competence—the elementary school. When you think about a career, think very earnestly about teaching. It may be your finest opportunity.

Go East, Young Salmon!

(From Toronto Saturday Night)

An experiment with wide biological as well as economic interest is currently being conducted in Alberta. Sockeye salmon, those peculiar fish with the stubborn spawning habits, were introduced into the St. Mary Reservoir in the southern part of the Province last July. Some 80,000 sockeye salmon fingerlings were hatched in the Provincial Government Fish Hatchery of the Department of Lands and Forestry at Calgary. They were then piped into the Reservoir from metal tanks in which they made the journey from the Hatchery.

The biologically interesting fact is that the sockeye salmon of the Pacific Ocean lives most of its life in salt water and enters fresh water only to spawn and die. The Fisheries Branch feels, however, that the fish can and will adapt itself to an exclusively fresh water existence.

The fingerlings have grown from eggs received from the Montana State Fisheries Branch. They were developed to the fingerling stage and then planted in the Reservoir instead of being allowed to mature at a rearing station, the apparent custom of men who know the ways of fish.

If the salmon experiment works, more fingerlings will be planted in other Alberta lakes. This winter 10,000 of them will be studied at the Calgary Hatchery. The sockeye salmon—whose reputation as a game fish is well established—may be one more in Alberta's long list of tourist attractions.

The Bible Today

Finally, be ye all of one mind, having compassion one of another; love as brethren, be pitiful, be courteous.—I. Peter, III; 8.

NOTHING BUT THE TRUTH by Russ Arnold

Voice of the People

JOHN BARLECORN'S BUDGET ONE MAN'S OPINION

A good many people go to jail, half or more of them for offenses against the liquor act, and quite a proportion of the rest for offenses committed when partially or wholly under the influence of liquor. Still, the province gets \$14 million or so per year profit out of liquor. It is used for roads, bridges, hospitals and wonder of wonders, for schools. There is even a small item, \$75,000 for an institution to reform alcoholics. Next thing we'll endow a few churches and missions with whisky money. Perhaps, the whole \$14 million should be used for such purposes.

The provincial government should have a special part of its yearly accounts giving a true account and balance sheet for the loss and gain in liquor. It might read something like this:

| | |
|--|--------------------|
| Profit | |
| Gross revenue from sale of liquor | \$14,000,000 |
| Less (direct and indirect) | |
| Cost of jails (pro rata of prisoners) | \$2,420,037 |
| Cost of police (pro rata of prisoners) | 1,640,184 |
| Property losses due to crime | 1,560,629 |
| Care of families of jail inmates | 1,380,516 |
| Loss by death (auto accidents, murders, fire, etc.), at \$10.00 per person | 3,315,487 |
| Medical expenses due to John Barleycorn | 1,580,101 |
| Shortened lives due to aforesaid John | 2,103,046 |
| Net profit | 1 |
| Total | \$14,000,000 |

This shows a net profit on hand of \$1.00, a really handsome fund. Perhaps by judicious advertising next year, increased liquor sales would reach this net profit and in a few years, it might be used as a revolving self-liquidating fund, to be used to start financing a few hotels. (That self-liquidating fund is really good). Hurrah for John.

CHARACTER ANALYSIS

Judging just by his pictures, Russia's new boss, Georgi Malenkov, is not the Cossack type. His eyes are those of a hunter and marksman. The mouth shows he is a 40-a-day cigarette smoker. I predict in him a man who will start great revolutions and wars by air, without warning.

E. A. ABRAMS.

The threshers came to our place on short notice, and caught me unprepared. It was during the time when meat prices were the highest, and, as per usual, my supply was low.

I remembered I had some canned sausage, and my two preschool age grandsons saw me heating the sausage, and asked if they could have some, as they were very fond of it. I replied they would have to wait till the men ate and if any was left they could have some.

During the meal the older of the two pipes up with "Don't you guys eat too much sausage. Granny said we could have some, if there was any left." I'll never know if any of the men heard him. However, no one said anything, and kept on devouring all that was before them. We laugh over it now!

Junior got some sausage. A.D.

LETTER TO LOUISA

16-Year-Old Girl Finds New Love Interest When "Steady Joe" Is Away

DEAR LOUISA — I am a girl of sixteen years old, I have been going steady with a very nice young man for two years.

He is well liked and respected by everyone. Joe went away for the winter and I only saw him every month or so. I have been going to school and live in town. I am considered a pretty girl with a swell personality. Because I love dancing and am a popular dancer. I didn't stop going to dances just because Joe wasn't here. I got going with a gang, my older brother went with. One of the boys started to pay my way into the dances and ask me to eat supper and go home with him. He is also a very nice fellow, he is employed in the town I live in. He isn't very well acquainted with Joe. I have more or less been going with him for three months. I know he thinks a lot of me. While I've been going with him he has never asked about Joe and I have never told him that I'm supposed to be going steady with Joe. Joe has come home again to stay, so I have tried to settle down again. He recently was told about me going with this other fellow and asked me about it in a very nice way. I didn't deny it. He told me if I was going to continue going with the other fellow he would have to stop coming to see me, he said he feels as if he could never go with another girl. I think a lot of Joe and also like the other fellow very much. When I go with the other fellow I have more fun than when I go with Joe, but I know for a fact people will respect me more if I go with Joe. Could you give me your advice on whether I should tell Joe I don't want to go steady or stick to him? I know it would please my mother if I continued to go with Joe, she doesn't know about this matter.

was your one big romance in life, will be, a few years later replaced by your affections by another.

Enjoy your young life, J.F., while you can and when you are matured in your thinking you will find the right man.

P.S. Listen carefully to your mother's advice as to the boys with whom you keep company, but remember that the choice of a husband will have to be yours and not your mother's.

Louisa

University Of Alberta To Receive Dr. Orr's Library

EDMONTON—University of Alberta officials revealed recently that the somewhat extensive medical library of the late Dr. Harold Orr of Edmonton had been willed to the University. Dr. Orr had been president of the Canadian Medical Association when he died in December at the age of 63.

The library contains several medical journals complete from 1889 to 1952. The interest shown by Dr. Orr in the University's medical library was always keen and he contributed many journals to it during his lifetime.

Sorum Appeals His Sentence

EDMONTON (BUP) — Lorang Sorum, 26, sentenced to be hanged at Fort Saskatchewan jail June 16 for the slaying of an oil company executive, recently appealed against his conviction and sentence through his lawyer.

FUA Meets To Hear Interesting Reports

CROSSFIELD

The regular monthly meeting of the Crossfield FUA local was held in the Community Hall on April 8 at 8 p.m. with 50 persons present.

The Bulletin Board and Warble Fly Spraying committees reported on their progress.

In a report from the local Co-op Store it was stated that they will give FUA members the same discount on farm supplies that is offered in other districts. Locals and members were advised to see the local Co-op manager for further particulars.

The Social Committee was instructed to make arrangements for a picnic for members and their families on Friday, June 12 — Farmers' Holiday. It was decided to cancel the May meeting and hold the next meeting on the 10th of June.

Following the business session, Mr. Bruce Ellis of Hubala and junior FUA President, one of the two young men in Canada to win the 1952 Nuffield scholarship which gave him a six-month trip to Britain where he lived with British farmers and studied their methods, showed 160 colored slides, with a running commentary on the scenery, crops and livestock from all parts of the British Isles, and reforestation in Scotland.

Some of the highlights of his talk were that 98 per cent of the British farmers belong to their Farmers Union which has a membership fee of from \$25 to \$50 per year, and is a voluntary organization as our own; that each acre of land with three or four applications of commercial fertilizer will pasture one cow for a year; that wheat yields over 100 bushels per acre where commercial fertilizer and a heavy application of manure was used; that the standard weight of oats is 48 lbs. per bushel and oats weighing 56 lbs. per bushel is common.

Farmers told Bruce that last year was the driest harvest in memory, and yet their grain had 18 per cent moisture when threshed. All grain goes to dryers before being stored.

Mr. Ellis' slides were exceptionally clear and were particularly interesting to persons familiar with Old Country landmarks.

The chairman moved a hearty vote of thanks to Mr. Ellis for his most interesting and informative address. Lunch was served and a social hour followed.

Trucker And Truck Escape Unscathed

BON ACCORD — Frank Everitt, local produce trucker, had a narrow escape from serious injury when his truck accidentally left the road and toppled on its side in a water filled ditch last Tuesday morning, April 7th. Two tractors were needed to get the truck back on the road. There wasn't even a dented fender from the mishap.

Six-year-old Boy Rides Bike 3 1/2 Miles

SALISBURY — Because he wanted to visit his grandparents, Mr. and Mrs. J. Stannard, Murray Hipkin, 6 year old son of Mr. and Mrs. George Hipkin, started out on the 3 1/2 mile journey on his tricycle and got there. Murray was not missed and his parents were surprised when a telephone call informed them that their son was safe. The boy's father got him with the car and took him home.

Bossie's Modern Plumbing

Mrs. R. M. writes in the Brockton Times: "My little nephew had been on a vacation on the farm. When he came back I asked him if he'd had a nice time and he replied boldly, 'Yes, it was great fun watching the farmer pulling the cow's teats.'

Wheat Pool Appoints Ben S. Plumer As Chairman

EDMONTON — T. E. Oliver, who has been assistant manager of the Alberta Wheat Pool, has been appointed acting manager to fill the vacancy caused by the death of the late R. D. Purdy. This announcement was made by Ben S. Plumer, chairman of the Board of Directors.

Mr. Oliver has had 42 years experience in the grain elevator business. He was born at Brantford, Ontario, and came to Calgary as a lad in 1909. The next year he entered the employ of the Alberta Pacific Elevator Company. In 1912 that company became the Alberta Pacific Grain Company under the management of John I. MacFarlane, who later became president. In the years Mr. Oliver spent with that company he arose to a position of considerable importance.

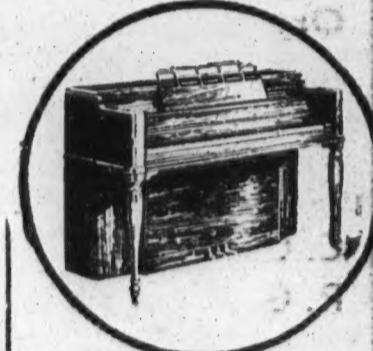

In July 1926, Mr. Oliver entered the service of Alberta Pool Elevators as assistant manager, the organization then being launched on its extensive elevator building program. In 1929 the pooling operation was united with that of the elevators and Mr. Oliver was appointed assistant manager of the combination.

In making the announcement Mr. Plumer said on behalf of the directors: "We bespeak for Mr. Oliver the same high type of help and support which has been accorded our managers in the past, and fully expect, and have every confidence, that our organization will continue to be a credit to every person connected with it."

Local Easter Service Impressive

GIBBONS — Forty-two communicants partook of Holy communion in the Gibbons Anglican Church on Easter Sunday.

Stately lilies lent their elegance to the altar while lovely daffodils decorated the pulpit and organ. A new Credence table was blessed before the Communion service began, and during the singing of the last hymn all the children attending the service, about fifteen, came forward to kneel at the altar and receive a blessing. The Rev. H. G. MacDonald conducted the service.

| Whooping Cough | 1 | 2 |
| Septic Sore Throat | — | 2 |

435 284

There were no cases reported from outside the city.

PICKLE PILFERER IN PICKLE

CHICAGO — Pickle-loving George Terik, 63, was in a pickle for picking a pickle out of a pickle barrel, at Carson A. Gallagher's delicatessen—and not paying for it. Terik, a transient, admitted taking the pickle — valued at 25 cents. The judge charged Terik with disorderly conduct and fined him \$107—to be worked out at the county jail at the rate of \$2.50 a day. Sympathetic police, however, presented Terik with a gift — one dozen dill pickles.

Olds, Agricultural School, Friday 8th and 22nd.

Sundre, WI Library, Tuesday, 12th.

All clinics 2 to 4 p.m.

Crossfield Supports Sports; Do Other Towns Do Better?

By JACK LEE

CROSSFIELD—Do you know that Crossfield hockey teams drew the largest crowds of the Rosebud Hockey League. When they played against Didsbury in the finals, 150 fans turned out. Other towns, for some reason

cannot support high school hockey teams any better than Crossfield, who can support one team. Other towns have well equipped arenas and our town, in comparison, has only an outside rink, which does not help the attendance so well.

Cartairs supports a good baseball team, where Crossfield has

a difficult time in finding players. The boys try hard at baseball and we hope that Crossfield will turn out and give the support necessary to stimulate the best in them.

The Canadian coyote, unlike most animals, usually mates for life. Hunting is done in pairs.

Cartairs supports a good baseball team, where Crossfield has

the best in them.

THE MOST Comfortable TRUCK CABS EVER BUILT!

Now . . . Ford Truck Engineering Introduces New Driverized Cabs

Here's the newest, most advanced idea in truck design . . . Driverized Cabs—planned with the driver in mind . . . designed to reduce fatigue, strain and discomfort . . . built to promote greater driving ease and higher efficiency. Check over the all-new driving features . . . see for yourself how Driverized Design makes Ford Economy Trucks the most comfortable, most efficient trucks on the road—the best trucks to drive from the driver's point of view!

NEW VISIBILITY ALL AROUND

New one-piece curved windshield with an increase of more than 50% in glass area gives wide-angle visibility for safer driving. Full-width rear window—over 4 feet wide—and bigger side windows give an increase of 19% in all-round visibility.

NEW COMFORT SEAT

Finest truck seat ever built—over a full 5 feet wide with non-sag springs—provides roomy comfort for three men. New built-in shock snubbers smooth out roughest bumps. Seat adjusts forward and back—seat-back angle also adjustable.

NEW CAB POSITION

New, forward positioning of engine and cab over the longer, softer, more flexible front springs gives greatly improved driver comfort.

PLUS THESE NEW FEATURES OF DRIVERIZED CAB DESIGN

- Larger side windows with sills at arm-rest length!
- Wider doors open right out for easier entrance!
- New insulation seals against engine noise, heat and fumes!
- New roto-type door locks . . . quieter, safer, more durable!
- New fully weather-sealed construction . . . dust-tight, fume-tight, water-tight!
- New curved instrument panel with easy-to-read "Cockpit" cluster!
- New heating and ventilating system for added all-weather comfort!
- New push-button door handles . . . easy to operate, more dependable!

Completely NEW for '53

FORD

economy

TRUCKS

Carry more and carry it farther . . . FOR EVERY TRUCKING DOLLAR

NEW STEERING EASE

Shorter wheelbases and wider front tracks make all '53 Ford Trucks easier to steer than ever before . . . shorter turning radius . . . more manoeuvrability . . . greater front-end stability.

FOR SMOOTH HANDLING

Famous Ford V-8 engines deliver plenty of lively power for tough hauls . . . give smooth, dependable performance mile after mile.

EFFORTLESS SYNCHRO-SILENT SHIFTING — Synchro-Silent Shifting on all models means much less effort for the driver, smoother operation in traffic. Automatic Transmission* and Overdrive* available in all F-100 Series. (* at extra cost).
